

AAKI

OVERFILL HIGH LEVEL ALARMS

FEATURES & BENEFITS

High Level Alarms provide an audible and visible alarm for monitoring levels of liquids. It can be directly mounted on a fuel tank to provide a warning of a near full tank level. Alternatively, the alarm indicator may be remotely located from the sensor. The powerful audible alarm can be heard over the sound of the pumping equipment. Aaki's High Level Alarms are weather proof and can be mounted in wet environments.

High Level Alarm (600601)

Specifications

Battery: 3VDC (2XAA)

Alarms: Audible and visible alarms

Alarm Volume: > 90dB

Operation Temperature: -40°C to +60°C (-40°F to +140°F)

Sensor: Piezoelectric sensor

Certification: ExialIBT4 Ga

Features & Benefits

Low battery alarm

Adjustable sensor level.

Continuous self-check and alert feature to ensure system is working

A standard 2" BSP fitting provided for mounting

Optional mounting fittings are available upon request

Aaki Corp.

The Better Way

Bonding & Grounding Solutions
